

Nikko City Kirifuri area HOW TO USE DIGITAL MAP

<Monitor>

<Entire Map>

1 i button...You can check more information about the map, e.g. map details, by tapping this button.

2 Compass button...If you press the compass button while the illustration map is rotated, the map will return to the open state.

In this state, if you press the compass button, the illustration map will rotate with the top of the screen facing north.

If you press the compass button while the standard map is rotated, the standard map will rotate with the top of the screen facing north.

3 Spot List...Shows a list of Spots on the map.

4 GPS button...This button displays your current location on the map. If you are using the room function, click to open a window where you can give permission to share your current location.

5 + - button...This button is used to scale the map.

6 Map switch button...This button is for switching between the illustrated map and the standard map.

The standard map displays the map selected in more maps.

7 more maps...Click to see standard maps to choose from, as well as maps included on the same board as the current map.
